1. Who amongst the following is D's son?

(A) E

(B) G

(C) A

(D) B

(E) Cannot be determined

2. Who sits second to the left of G?

(A) A's brother

(B) G's mother

(C) D

(D) B's father

(E) A's aunt

3. How many people sit between A and his brother?

(A) None

(B) One

(C) Two

(D) Three

(E) Four

4. Who amongst the following sits exactly between H and F?

(A) D's wife

(B) D's son

(C) C

(D) B

(E) A

5. Who amongst the following is the brother of A?

(A) E

(B) G

(C) A

(D) B

(E) Cannot be determined

6. Based on the given arrangement, how is A related to D?

(A) Grandfather

(B) Son

(C) Grandson

(D) Daughter-in-law

(E) Cannot be determined

7. Four of the following five are alike in a certain way based on the given arrangement and so form a group. Which is the one that does not belong to that group?

(A) B

(B) C

(C) H

(D) G

(E) F

8. Which of the following statements regarding H is definitely correct?

(A) H is a male

(B) H is the cousin of C

(C) Both the immediate neighbours of H are males

(D) H is the daughter-in-law of D

(E) H is the father of A

9. Read the following information carefully and answer the question which follows.

A recent report points to the fact that what stands between girls in village Regari and a good education is the lack of transport, to and from the only school in the area.

Which of the following can be inferred from the given statement?

(An inference is something which is not directly stated but can be inferred from the given facts.)

(A) Everyone living in Regari faces problems in commuting

(B) Discrimination against girls is more evident in Regari than other villages in India

(C) The report had shown Regari in a poor light

(D) The school in Regari is not at a walkable distance from the village

(E) There is also a lack of institute for higher learning in Regari

10. What is the code for 'ready?
(A) red
(B) indigo
(C) **green**
(D) grey
(E) Cannot be determined

11. What does 'silver' stand for?
(A) safety
(B) own
(C) hidden
(D) for
(E) Either 'own' and 'for'

12. 'black pink yellow' could be a code for which of the following?
(A) town under attack
(B) hidden for safety
(C) attack in town
(D) my own town
(E) risk in town

13. What is the code for 'attack'?
(A) grey
(B) indigo
(C) white
(D) violet
(E) blue

14. Which of the following may represent 'all hidden weapons'?
(A) white red orange
(B) brown grey red
(C) indigo white red

(D) red violet white

(E) orange brown red

15. What is the code for 'own'?

(A) silver

(B) blue

(C) indigo

(D) violet

(E) black

16. Among P. Q, R, S and T, sitting in a straight line, facing North, who sits exactly in the middle of the line?

I. P sits third to left of S. T is an immediate neighbour of P as well as R.

II. T sits second to left of S. Q is not an immediate neighbour of either T or S.

(A) If the data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

(B) If the data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer to question.

(C) If the data in either Statement I alone or in Statement II alone are sufficient to answer the question.

(D) If the data in neither Statement I nor II are sufficient to answer the question.

(E) If the data in both the Statements I and II together are necessary to answer the question.

17. Among five friends A, B, C, D and E, sitting around a circular table, facing the centre, who sits to the immediate right of A?

I. E sits third to right of D. A is not an immediate neighbour of D.

II. C sits second to left of B. A is not an immediate neighbour of C.

(A) If the data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

(B) If the data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer to question.

(C) If the data in either Statement I alone or in Statement II alone are sufficient to answer the question.

(D) If the data in neither Statement I nor II are sufficient to answer the question.

(E) If the data in both the Statements I and II together are necessary to answer the question.

18. Who amongst P. Q, R, S and T is the tallest?

I. P is taller than S and T but shorter than R. Q is taller than S.

II. T is taller than S. P is not the tallest.

(A) If the data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

(B) If the data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer to question.

(C) If the data in either Statement I alone or in Statement II alone are sufficient to answer the question.

(D) If the data in neither Statement I nor II are sufficient to answer the question.

(E) If the data in both the Statements I and II together are necessary to answer the question.

19. Is 'EAST' the word formed after performing the following operations on a word containing these four letter?

I. There is only one letter between A and T. E is to the left of A.

II. The word does not begin with T. There is only one letter between E and S. T is not an immediate neighbour of E.

(A) If the data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

(B) If the data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer to question.

(C) If the data in either Statement I alone or in Statement II alone are sufficient to answer the question.

(D) If the data in neither Statement I nor II are sufficient to answer the question.

(E) If the data in both the Statements I and II together are necessary to answer the question.

20. Is C the grandmother of M?

I. C is the mother of D. D is the brother of M's father.

II. E is the mother of S. S is the sister of M. F the aunt of S in the only daughter of C.

(A) If the data in Statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.

(B) If the data in Statement II alone are sufficient to answer the question, while the data in Statement I alone are not sufficient to answer to question.

(C) If the data in either Statement I alone or in Statement II alone are sufficient to answer the question.

(D) If the data in neither Statement I nor II are sufficient to answer the question.

(E) If the data in both the Statements I and II together are necessary to answer the question.

21. On which of the following months does H join the office?

(A) April

(B) June

(C) July

(D) February

(E) March

22. Who amongst the following sits exactly between E and B?

(A) The person whose joining date is in May

(B) The person whose joining date is in January

(C) D

(D) A

(E) The person whose joining date is in August

23. 'H' is related to 'July' in a certain way based on the above arrangement. 'B' is related to 'June' following the same pattern. is related to 'May' following the same pattern.

(A) F

(B) G

(C) A

(D) D

(E) C

24. Which of the following is true regarding D?

(A) Only two people sit to the left of D

(B) D is sitting second to the right of the person whose joining date is in July

(C) E and B are immediate neighbours of D

(D) D's joining date is in May

(E) None is true

25. Who amongst the following has joining date in June?

(A) F

(B) E

(C) G

(D) D

(E) C

26. How many people sit between C and the person whose joining date is in April?

(A) None

(B) One

(C) Two

(D) Three

(E) Four

27. Who amongst the following are sitting at extreme ends of the line?

(A) A and the person whose joining date is in August

(B) The person whose joining date is in May and E

(C) C and G

(D) The persons whose joining dates are in March and June

(E) None of these

28. On which of the following floors does V live

(A) 4th

(B) 3rd

(C) 6th

(D) 5th

(E) Cannot be determined

29. Who amongst the following lives on the topmost floor, i.e. floor number 6?

(A) T

(B) S

(C) R

(D) P

(E) Either V or P

30. How many floors are there between the floors on which R and T live?

(A) None

(B) One

(C) Two

(D) Three

(E) Four

31.

(A) Compare

(B) Conflict

(C) Distinguish

(D) Contrast

(E) Differentiate

32. (A) Recollect

(B) Retrieve

(C) Regain

(D) Recall

(E) Realise

33. How many steps will be required to complete the rearrangement?

(A) Eight

(B) Six

(C) Seven

(D) Five

(E) None of these

34. Which word/number would be at 7th position from the Step IV?

(A) rise

(B) aim

(C) big

(D) 15

(E) 47

35. Which step number is the following output?

rise not moon gem does big aim 15 with 92 85 63 56 47 31 25

(A) Step V

(B) Step VII

(C) Step IV

(D) Step VIII

(E) There is no such step

36. Which of the following represents the position of '92' in the VIth step?

(A) Ninth from the left

(B) Fifth from the right

(C) Sixth from the right

(D) Ninth from the right

(E) Seventh from the left

37. Which word/ number would be at the 5th position from the right in the last step?

(A) gem

(B) 63

(C) 56

(D) 85

(E) does

38. Who amongst the following is the third heaviest?

(A) Karan

(B) Rahul

(C) Bharat

(D) Dana

(E) Cannot be determined

39. Which of the following is true?

(A) Only four people are heavier than Rahul

(B) Bharat weighs more than Parul

(C) No one weighs less than Bharat

(D) Only two people are heavier than Karan

(E) All are true

40. Read the following information carefully and answer the question which follows:

A is the brother of B. B is the sister of T. T is the mother of P. If it is provided that R is the grandfather of P, how would T be related to R?

(A) 'Daughter'

(B) 'Granddaughter'

(C) Sister

(D) Wife

(E) 'Daughter' or 'Daughter-in-law'
